HPS Freshmen Academic Advising Syllabus

What is Advising?

Advising is a partnership between students and advisors to promote academic progress and student success. Our goal in HPS is to build a rapport that positively impacts every student throughout their academic career.

Advantages to Advising

Connectivity- UNT is one of the largest universities in Texas, yet there are many opportunities to feel that community connection. Students in HPS are connected through a group of people dedicated to every student's success. HPS Advisors are a resource providing a safe and respectful space to ask questions, discuss interests, or express concerns. We are here when you need support or guidance...and we will be there to celebrate your successes along the way and at the finish line...GRADUATION DAY!

Resources- UNT provides abundant resources to students to support their academic needs and career goals. Your Advisor will provide you with information so that you are able to take advantage of the many excellent resources available on campus.

Review- During your advising appointment, we will review your academic progress. We will highlight the academic areas you have satisfied as well as the areas yet to be completed. Students will be informed of academic requirements, advanced hours, holds & hours earned.

Efficiency- Your HPS Advisor will review your degree audit and ensure that you are on track academically to graduate. We ask you to meet with us each semester so that we can ensure the classes you take count toward your degree. Be sure to make your appointment 2-3 weeks in advance.

Expectations of Advising

- **Punctuality-** We pledge to be prepared for your advising appointment and we expect the same from each student. Please contact our office for any situation preventing you from arriving on time. If you must change an appointment, please contact us as soon as possible prior to your scheduled appointment.
- **Evaluate Degree Audit-** Familiarize yourself with the classes you have completed and the requirements still needing completion prior to each advising session.
- **Communication-** Communicate with your advisor any questions or concerns regarding your academic progress. If need be, we will direct you to the proper campus resource.
- **Accountability-** HPS strives to work with every student on setting and accomplishing their academic goals...but students are accountable for their decisions and actions. Class attendance, completing assignments on time, and being a responsible student will ultimately determine how successful students are with their academic progress.

To remove your Spring 2024 advising code, please complete at least two of the below and meet with your academic advisor to enroll in spring courses.

Find out when your registration opens visit: registrar.unt.edu/when-can-i-register or scan QR code.

Watch your UNT email for your RSVP link closer to the event date. You can visit tinyurl.com/HPSFYs or scan QR code for updates.

If you have any additional questions please email hpsadvisingservices@unt.edu.
